SUBJECT INDEX

1967, Volume 42

- Acidosis, chronic metabolic, methylmalonic aciduria leading to, 492
- Acid mucopolysaccharides, urinary excretion, in two sibs with Morquio's syndrome and Reilly's granules in leucocytes, 652
- Addison's disease and diabetes mellitus, 319
- Admissions, maternal, with children requiring elective surgery, clinical trial, 564, P.
- Adrenal cortex in marasmic children, 657
- Agnesis, unilateral pulmonary, 361
- Aldosterone, underproduction, with hypertension and hypokalaemic alkalosis, 566, P.
- Alkalosis, hypokalaemic, and hypertension, with underproduction of aldosterone, 566, P.
- Alymphoplasia, thymic, 40
- Amino acid loads, effects on a healthy infant with biochemical features of Hartnup disease, 682
- Amino acids, plasma and urinary, in children with primary hyperoxaluria and in normal children, 619
- Anaemia, aplastic, an auto-immune disease, 336, P.
- Anencephalus in Scotland with reference to geography, history, religion, and blood groups, 565, P.
- ANNOTATION: Dwarfism, hypopituitarism, and growth hormone, 225
- Anoxia, experimental and clinical, encephalopathy following, 333, P.
- Anthrax, treatment in children, 181
- Antibiotics, side-effects in cystic fibrosis of the pancreas, and dental changes, 311
- Arrhinencephaly, 15 cases, 334, P.
- Arthrogryposis accompanying congenital spinal-type muscular atrophy, 666
- Assessment, child, and developmental paediatrics, Postgraduate course, Institute of Child Health, 1967, 108
- Asthma, corticosteroid therapy in children with asthma, hypophyseo-adrenocortical inhibition, 532
— symposium, Manchester, April 27, 567, P.
- Atrophy, congenital spinal-type, arthrogryposis accompanying, 666
- Auto-immunity, and aplastic anaemia, 336, P.
- B.C.G., lichen scrofulosorum following, 448
- Benztropine mesylate, use in treatment of paroxysmal dyskinesia, 654
- Biopsy, jejunal, in infants and underweight children, 623
- Birthweight, low, relationship of the thrombotest and intracranial haemorrhage in, 566, P.
- Bone-marrow, aspirated, paraffin sections, in early diagnosis of thrombotic microangiopathy, 158

- Hair growth in kwashiorkor, 397

- 'Happy puppet' syndrome, 298
 Hartnup disease, effects of amino acid loads on a healthy infant with the biochemical features of Hartnup disease, 682
 ——— nicotinic acid therapy, 642
 Heat losses from babies in incubators, 75
 Hepatic diseases, serum magnesium level in infants and children with, 615
 Hepatitis followed by benign recurrent cholestasis, 565, *P.*
 Hirschsprung's disease, associated with enterocolitis, 335, *P.*
 ——— neonatal mortality, 566, *P.*
 Homocystinuria, treatment, 514
 Hormone growth, dwarfism, and hypopituitarism: annotation, 225
 ——— glucose, and free fatty acid levels in mother and infant in normal diabetic and toxæmic pregnancies, 24
 ——— effect in kwashiorkor and marasmus, 29
 ——— inducing nitrogen retention in children of short stature, 239
 ——— secretion, provoked by insulin-induced hypoglycaemia in children of short stature, 232
 Hydrocephalus: electrocardiographic localization of the catheter in ventriculo-atrial shunts, 166
 ——— or meningomyelocele, cause of death in children with, 163
 Hyperglycaemia, neonatal: case report with plasma insulin studies, 509
 Hypernatraemia in infants as a cause of brain damage, 485
 Hyperoxaluria, primary, biochemical studies on the treatment, 505
 ——— plasma and urinary amino acids in, and in normal children, 619
 Hyperprolinaemia, 334, *P.*
 Hypertension and hypokalaemic alkalosis with underproduction of aldosterone, 566, *P.*
 ——— severe, in childhood, 34
 Hypoglycaemia, insulin-induced, growth hormone secretion provoked by, in children of short stature, 232
 ——— leucine-sensitive, treated with diazoxide, 410
 ——— in the newborn, diagnosis and treatment, 353
 Hypopituitarism, in childhood, diagnosis, 228
 ——— dwarfism, and growth hormone; annotation, 225
 Hypothyroidism due to auto-immune thyroiditis in a young child with Down's syndrome, 449
 Hypotonia, mental retardation, obesity, and cryptorchidism associated with dwarfism and diabetes in children, 126
 Incubators, heat losses from babies in, 75
 Insulin levels, fasting serum, in childhood, 375
 ——— plasma, studies in case of neonatal hyperglycaemia, 509
 Intelligence, pulmonary stenosis, and café-au-lait spots, 303
 Islet-cell tumour of the pancreas, Cushing's syndrome associated with, boy aged 2 years, 525
 Jejunal biopsy, in infants and underweight children, 623
 Juice, duodenal, enzyme content, in chronic diarrhoeas of infancy and children, 289
 Junction, costochondral, during later stages of intrauterine life, and abnormal growth patterns found in association with perinatal death, 1
 Kidneys, *see* Renal
 Kwashiorkor, biochemical tests in differential diagnosis of protein and calorie deficiencies, 479
 ——— difficulties in initial treatment, 567, *P.*
 ——— hair growth in, 397
 ——— and marasmus, effect of human growth hormone in, 29
 Lead absorption in children, 564, *P.*
 ——— levels, blood, in normal and mentally deficient children, 573
 ——— poisoning in children in Ceylon, 579
 Leigh's subacute necrotizing encephalopathy: clinical and biochemical study, with special reference to therapy with lipote, 467
 Leucine-sensitive hypoglycaemia treated with diazoxide, 410
 Leucodystrophies, 333, *P.*
 Leukaemia, meningeal, clinical and laboratory findings, and treatment, 441
 Lichen scrofulosorum following B.C.G., 448
 Limb abnormalities, a large deletion of the long arm of chromosome No. 4 in a child with, 428
 Lipidol test, evaluation for detection of steatorrhoea, 97
 Lipoate, clinical trial in Leigh's subacute necrotizing encephalopathy, 467
 Lipodystrophy, generalized, carbohydrate and lipid metabolism in, 566, *P.*
 Lipoproteins, serum, in schoolboys in relation to glucose-6-phosphate dehydrogenase deficiency and thalassaemia trait, 328
 Listeriosis in association with *Esch. coli* meningitis, 663
 Liver, congenital hepatic fibrosis in Jamaican children, 379
 ——— glycogenosis and cataracts in a mentally deficient child, 435
 Lung, absence, 361
 Lymphadenitis, mycobacterial, in childhood, 70
 Lymphocytes, peripheral, low mitotic activity during first two years of life, 549
 Magnesium, serum in infants and children with hepatic diseases, 615
 Malabsorption, glucose-galactose, 592
 Malnutrition, biochemical tests, 479
 Marasmus, adrenal cortex in, 657
 ——— biochemical tests in differential diagnosis of protein and calorie deficiencies, 479
 ——— and kwashiorkor, effect of human growth hormone in, 29
 Measles and paroxysmal cold haemoglobinuria, 183
 Medium chain triglyceride diets in children, 567, *P.*
 Meningeal leukaemia, clinical and laboratory findings, and treatment, 441
 Meningitis, *Esch. coli*, in association with listeriosis, 663
 Meningomyelocele, or hydrocephalus, cause of death in children with, 163
 Mental deficiency, blood lead levels in normal and in, 573
 ——— disease, liver glycogenesis and cataracts in a mentally deficient child, 435
 ——— retardation, hypotonia, obesity, and cryptorchidism associated with dwarfism and diabetes in children, 126
 Methylmalonic aciduria, an inborn error of metabolism leading to chronic metabolic acidosis, 492
 Microangiopathy, thrombotic, early diagnosis by paraffin sections of aspirated bone-marrow, 158
 Mitotic activity, low, of peripheral lymphocytes during the first two years of life, 549
 Monosaccharide transport, sugar malabsorption due to deficiencies of disaccharidase activities and of, 341
 Morquio's syndrome, urinary excretion of acid mucopolysaccharide, Reilly's granules in leucocytes, two sibs, 652
 Mortality, neonatal, and Hirschsprung's disease, 566, *P.*
 Mothers, admitted with children requiring elective surgery, clinical trial, 564, *P.*
 Mucosa, small bowel, dissecting microscope appearance, in children, 626
 Mycobacterial lymphadenitis in childhood, 70
 Myelomeningocele, urinary tract infection in children, 521
 Neutropenia, chronic, and pancreatic insufficiency, association in childhood, 147
 Newborn, care of, scientific basis, 457
 Nicotinic acid therapy, in Hartnup disease, 642
 Niemann-Pick disease, juvenile form, case history, 91
 Nitrogen retention, growth hormone-induced, children of short stature, 239
 Obesity, hypotonia, mental retardation and cryptorchidism associated with dwarfism and diabetes in children, 126
 Oral-facial-digital syndrome, five case reports, 214
 Ovarian tumours in childhood, 336, *P.*
 Oxygen, arterial, studies in premature newborns, with and without mild respiratory disorders, 174
 Pancreas, *see* Cystic fibrosis
 Pancreatic insufficiency and chronic neutropenia in childhood, 147
 Paraproteinaemia, and unusual dys- α -globulinaemia in a case of Wiskott-Aldrich syndrome, 608

- Parathyroid glands and thymus, congenital aplasia, one case, 190
- Perinatal care, scientific basis for, 457
- PERSONAL PRACTICE: Some aspects of cancer in childhood, 552
- Phenylketonuria, termination of dietary treatment, 198
- Phosphate excretion, urinary (correspondence), 572
- Pierre Robin syndrome, non-surgical management, 20
- Pneumonia, aspiration, and difficulty of swallowing in infancy, 308
- Polyarthritis, and sarcoidosis, in a two-year-old boy, 671
- Pregnancies, multiple, and immunoglobulins in umbilical cord plasma, 264
- normal, diabetic, and toxæmic; growth hormone, glucose, and free fatty acid levels in mother and infant, 24
- Prematurity, arterial oxygen studies in premature newborns with and without mild respiratory disorders, 174
- , folic acid status in infants, 57
- Protein and calorie deficiencies, biochemical tests in differential diagnosis, 479
- Protein-calorie undernutrition, classification in children, 467
- Psychiatric department, role in preventing ill-treatment of children, 564, *P.*
- 'Puppet' syndrome, 298
- Pyridoxine dependency, familial intrauterine convulsions in, 201
- Pyuria and bacteriuria, 275
- Radioisotope renography, experiences in children, 583
- Reilly's granules in leucocytes, and urinary excretion of acid mucopolysaccharide in two sibs with Morquio's syndrome, 652
- Renal infection, maternal, influence on foetus and infant, 208
- Renography, radioisotope, experiences in children, 583
- Research, treatment, experiment: editorial, 109
- Respiratory disorders, mild, arterial oxygen studies in premature newborns with and without, 174
- distress syndrome, changes in blood gas tensions following administration of amine buffer THAM to infants with respiratory distress syndrome, 416
- neonatal, vasculature of the lung in, 336, *P.*
- transient, in the newborn, 659
- Wilson-Mikity, 2 cases, 85
- REVIEW ARTICLES: Maternal rubella and its effect on the foetus, 110.
- Sugar malabsorption due to deficiencies of disaccharidase activities and of monosaccharide transport, 341
- Rubella, congenital, pathology, Jamaica, 389
- laboratory diagnosis, 335, *P.*
- maternal, and its effect on the foetus: review article, 110
- Saliva, sodium in, determination by the electrode method, 334, *P.*
- Sarcoidosis with polyarthritis in a 2-year-old boy, 671
- Sequestration, pulmonary, 335, *P.*
- Shunts, ventriculo-atrial, electrocardiographic localization of catheter in, in hydrocephalus, 166
- Sodium in saliva, determination by the electrode method, 334, *P.*
- levels, unstimulated parotid saliva, screening for cystic fibrosis by measurement of, 689
- Spina bifida cystica, incidence of spina bifida occulta in parents and in controls, 171
- Stature, short, growth hormone-induced nitrogen retention in children, 239
- growth hormone secretion provoked by insulin-induced hypoglycaemia, 232
- not associated with metabolic, chromosomal, or gross nervous system defects, differential diagnosis in children, 245
- see also Dwarfism
- Steatorrhoea, evaluation of lipiodol test for the detection, 97
- Stenosis, pulmonary, café-au-lait spots, and dull intelligence, 303
- Sugar malabsorption, due to deficiencies of disaccharidase activities and of monosaccharide transport: review article, 341
- Swallowing, difficulty in, with aspiration pneumonia, infancy, 308
- Tangier disease in an English family, 567, *P.*
- Temperature control in the newborn, temporary disturbance, 565, *P.*
- Tetanus neonatorum, place of tracheostomy in, 546
- Tetracyclines, and dental changes in cystic fibrosis of the pancreas, 311
- Thalassaemia trait, and glucose-6-phosphate dehydrogenase deficiency, relation to serum lipoproteins in schoolboys, 328
- THAM, changes in blood gas tensions following administration of this amine buffer to infants with respiratory distress syndrome, 416
- Thromboembolism, disseminated fibrin, among neonates dying within 48 hours of birth, 401
- Thrombotest, and intracranial haemorrhage in low birthweight infants, relationship, 566, *P.*
- Thrombotic microangiopathy, early diagnosis by paraffin sections of aspirated bone-marrow, 158
- Thymic aplasia, 40
- Thymus, and parathyroid glands, congenital aplasia, 190
- Thyroiditis, auto-immune, hypothyroidism due to, in young child with Down's syndrome, 449
- lymphocytic, fulminating diabetes with, one case, 677
- Tracheostomy, place in tetanus neonatorum, 546
- Treatment—research—experiment: editorial, 109
- Tryptophan, in childhood epilepsy, effect of treatment on the metabolism of, 281
- Tuberculosis, indolent non-caseating mycobacterial, one case, 294
- Tumours, ovarian, in childhood, 336, *P.*
- Umbilical cord plasma, immunoglobulins in. I. Healthy infants, 259; II. Congenital deformities, other abnormalities, and multiple pregnancies, 264
- Undernutrition, protein-calorie, classification in children, 647
- Underweight children, jejunal biopsy, and in infants, 623
- Urinary tract infection in children with myelomeningocele, 521
- pyuria and bacteriuria, 275
- Urine, cells in, in newborn infants, 598
- phosphate excretion (correspondence), 572
- Vasculature, pulmonary, in neonatal respiratory distress syndrome, 336, *P.*
- Veno-occlusive disease, pulmonary, 322
- Vertigo, paroxysmal, in young children, 546, *P.*
- Wilson-Mikity respiratory distress syndrome, 2 cases, 85
- Wiskott-Aldrich syndrome, paraproteinaemia and unusual dys- α -globulinaemia in, 608
- two cases, 604

CONTENTS

No. 221. FEBRUARY 1967

	PAGE
The Costochondral Junction During Later Stages of Intrauterine Life, and Abnormal Growth Patterns Found in Association with Perinatal Death	1
John L. Emery and Pitsa K. Kalpaktoglou	
Cytomegalic Inclusion Disease	14
Kazimiera Gajl-Peczalska	
Non-surgical Management of Pierre Robin Syndrome	20
W. D. Pielou	
Growth Hormone, Glucose, and Free Fatty Acid Levels in Mother and Infant in Normal, Diabetic, and Toxaemic Pregnancies	24
Z. Laron, S. Mannheimer, M. Nitzan, and J. Goldmann	
Effect of Human Growth Hormone in Kwashiorkor and Marasmus	29
David R. Hadden and Ingrid H. E. Rutishauser	
Severe Hypertension in Childhood	34
John Lloyd Still and Dennis Cottom	
Thymic A lymphoplasia	40
J. C. Haworth, J. Hoogstraten, and H. Taylor	
Bronchography in Children	55
Henry E. Bell	
Folic Acid Status in Premature Infants	57
T. M. Vanier and J. F. Tyas	
Chemical Studies in Gargoylism	62
Jorgen Clausen, Holger V. Dyggve, Johannes C. Melchior, and Hans Olav Christensen Lou	
Mycobacterial Lymphadenitis in Childhood	70
A. Mackellar, H. B. Hilton, and P. L. Masters	
Heat Losses from Babies in Incubators	75
E. N. Hey and L. E. Mount	
Wilson-Mikity Respiratory Distress Syndrome	85
C. H. Sinnette, A. M. Bradley-Moore, W. P. Cockshott, and G. M. Edington	
The Juvenile Form of Niemann-Pick Disease	91
R. M. Norman, R. M. Forrester, and A. H. Tingey	
An Evaluation of the Lipidol Test for the Detection of Steatorrhoea	97
Janet L. P. Hunter, J. M. Johnstone, and J. H. Kemp	
The Chediak-Higashi Anomaly: A Report of Two Cases	100
Rosemary R. Millis, J. Martin, and D. I. K. Evans	
Book Reviews	106
Postgraduate Course on Developmental Paediatrics and Child Assessment	108

	PAGE
Editorial: Treatment—Research—Experiment?	109
Review Article: Maternal Rubella and Its Effect on the Foetus	110
J. A. Dudgeon	
Hypotonia, Mental Retardation, Obesity, and Cryptorchidism Associated with Dwarfism and Diabetes in Children	126
Bernard M. Laurance	
Syndrome Associated with a Deficiency of Part of the Long Arm of Chromosome No. 18	140
J. Insley	
Association of Pancreatic Insufficiency and Chronic Neutropenia in Childhood ..	147
Valerie Burke, John H. Colebatch, Charlotte M. Anderson, and Malcolm J. Simons	
Early Diagnosis of Thrombotic Microangiopathy by Paraffin Sections of Aspirated Bone-marrow	158
T. E. Blecher and A. B. Raper	
Cause of Death in Children with Meningomyelocele or Hydrocephalus	163
H. B. Eckstein, D. G. W. Cooper, E. R. Howard, and Juliet Pike	
Hydrocephalus: Electrocardiographic Localization of the Catheter in Ventriculo-atrial Shunts	166
G. Brocklehurst, J. R. W. Gleave, R. A. Millar, and Aileen K. Adams	
Spina Bifida Cystica: Incidence of Spina Bifida Occulta in Parents and Controls ..	171
John Lorber and Keith Levick	
Arterial Oxygen Studies in Premature Newborns with and without Mild Respiratory Disorders	174
Marcello M. Orzalesi, Modesto Mendicini, Giovanni Bucci, Antonio Scalamandrè, and Pier Giorgio Savignoni	
Treatment of Anthrax in Children	181
A. C. Tahernia	
Paroxysmal Cold Haemoglobinuria and Measles	183
B. J. O'Neill and W. C. Marshall	
Rapid Method for the Detection of Cystic Fibrosis of the Pancreas in Children ..	187
B. A. Saggars, David Lawson, J. Stern, and A. C. Edgson	
Congenital Aplasia of Parathyroid Glands and Thymus	190
J. Huber, P. Cholnoky, and H. E. Zoethout	
Miliary Haemangiomas in the Newborn	193
David Burman, Peter W. A. Mansell, and Robert P. Warin	
Termination of Dietary Treatment of Phenylketonuria	198
Frederick P. Hudson	
Familial Intrauterine Convulsions in Pyridoxine Dependency	201
Mir. Bejšovec, Z. Kulenda, and E. Ponča	
Influence of Maternal Renal Infection on the Foetus and Infant	208
Marguerite J. Patrick	
Oral-facial-digital Syndrome	214
J. A. Dodge and D. C. Kernohan	
Book Reviews	220
Correspondence	224
Donald Paterson Prize Essay	224

	PAGE
Annotation: Dwarfism, Hypopituitarism, and Growth Hormone	225
A. Prader	
Diagnosis of Hypopituitarism in Childhood	228
Douglas Hubble	
Growth Hormone Secretion Provoked by Insulin-induced Hypoglycaemia in Children of Short Stature	232
L. Stimmeler and G. A. Brown	
Growth Hormone-induced Nitrogen Retention in Children of Short Stature	239
G. A. Brown, L. Stimmeler, and J. G. Lines	
Differential Diagnosis of Children with Short Stature Not Associated with Metabolic, Chromosomal, or Gross Nervous System Defects	245
Barbara E. Clayton, J. M. Tanner, G. H. Newns, R. H. Whitehouse, and A. G. L. Renwick	
Immunoglobulins in Umbilical Cord Plasma. I: Healthy Infants	259
Hazel Thom, Eric McKay, and Derek Gray	
Immunoglobulins in Umbilical Cord Plasma. II: Congenital Deformities, Other Abnormalities, and Multiple Pregnancies	264
Eric McKay, Hazel Thom, and Derek Gray	
Pyuria and Bacteriuria	275
C. N. Lam, A. D. Bremner, J. D. Maxwell, A. V. Murphy, and W. J. Low	
Effect of Treatment on the Metabolism of Tryptophan in Childhood Epilepsy	281
P. A. M. Hughes, B. D. Bower, D. N. Raine, and N. Syed	
Chronic Diarrhoeas in Infancy and Childhood. II: Enzyme Content of Duodenal Juice	289
C. J. Ingomar and E. Terslev	
Indolent Non-caseating Mycobacterial Tuberculosis	294
A. W. Blair	
The 'Happy Puppet' Syndrome	298
B. D. Bower and P. M. Jeavons	
Pulmonary Stenosis, Café-au-lait Spots, and Dull Intelligence	303
Geoffrey H. Watson	
Difficulty in Swallowing, with Aspiration Pneumonia in Infancy	308
N. Matsaniotis, J. Karpouzas, and M. Gregoriou	
Side-effects to Antibiotics in Cystic Fibrosis: Dental Changes in Relation to Antibiotic Administration	311
J. N. Swallow, Jacqueline De Haller, and Winifred F. Young	
Addison's Disease and Diabetes Mellitus	319
A. P. Kenna	
Pulmonary Veno-occlusive Disease	322
K. Weisser, F. Wyler, and F. Gloor	
Serum Lipoproteins in Schoolboys in Relation to Glucose-6-phosphate Dehydrogenase Deficiency and Thalassaemia Trait	328
S. N. Pantelakis and S. A. Doxiadis	
Paediatric Pathology Society	332
Book Reviews	338
Correspondence	340

Review Article

Sugar Malabsorption Due to Deficiencies of Disaccharidase Activities and of Monosaccharide Transport	341
A. Holzel	
Diagnosis and Treatment of Hypoglycaemia in the Newborn	353
Marie A. Campbell, Isobel C. Ferguson, James H. Hutchison, and Margaret M. Kerr	
Unilateral Pulmonary Agenesis	361
J. B. Booth and C. L. Berry	
Fasting Serum Insulin Levels in Childhood	375
D. B. Grant	
Congenital Hepatic Fibrosis in Jamaican Children	379
Marigold J. Thorburn, Colin G. Miller, and Gerrit Bras	
Pathology of Congenital Rubella in Jamaica	389
Marigold J. Thorburn and Colin G. Miller	
Hair Growth in Kwashiorkor	397
